

Racketball Long Game League

Scoring Rules

Rules for Bexley Park Racketball Long Game League

1. PLAYING This is a new trial league, with the emphasis on Fun and Exercise. As the majority of entrants have been playing the LONG game, we will trial a long game league. The long game is played as normal squash apart from no drop shots, and is determined by the ball bouncing for the 2nd time over the service line to create a rally, If the ball touches the line on the 2nd bounce then it's a foul. Serving is the same as squash, however the ball must not hit the back wall before the floor. If the ball nicks on the back wall it's a let, and the server re-takes the serve. All league players are encouraged to phone each other to promote a healthy league with as many games played as possible. Bearing in mind that whilst in the league there should be a commitment to other league players to complete all games. Those found to have made little effort will be relegated. Any player who does not play any games will be removed from the league. All games are based on 40 minutes unless agreed prior to starting the game.

2. SCORING All players should use PAR (point a rally) best of 5 games, scoring to 11, setting at 10 all, winner has to have to clear points. The point's process, 6 for a win, 4 for 2 games won, 3 for 1 game won, and 2 points for nil games, with an additional 6 points for completing all games. A breakdown of the points system is as follows; 2 Points for turning up, 1 point per game won, 1 point for winning the match. A player who is unable to commit to a date or does not turn up or has not responded to at least 2/3 phone calls texts or mails for a league game is allocated zero points.

3. INJURY Any player injured during the league, and unable to complete all games should cross themselves out of the league for that period, they will automatically be re-introduced into the league below for the following period. All other players in that league who complete all their games can still claim 6 points.

4. LONG TERM INJURY or ABSENSE Any player who wishes to be removed from the leagues should cross themselves out of the league and write (WD) withdrawn in the total column.

When that player re-applies to return to the league competition following lengthy absence, (2months +) every effort will be made to place into one league below their ability.

5. NEW MEMBERS or ENTRANTS Any new member to the league squash will be allocated to a league at least one or two levels below their expected ability. This will allow them to meet and play other members.

6. SECRETARY'S DECISION In respect of all the rules above, it must be understood that the League Secretary's decision is final.

Request to join the league add names below.
